# Cleveland's BAKING POWDER

Each ingredient is tested before compounding, and it must be found of the highest standard. The baking powder itself is tested. That's why each spoonful does perfect work.

### CITY NOTES.

The board of revision and appeals will meet this afternoon.

Martin P. Flynn, of the firm of Short & Flynn, is negotiating for the Valley House lease.

The Delaware and Hudson Canal company paid its railroad employees south of Scranton yesterday.

Tim Burwick will conduct the Sunday evening service at the Rescue Mission, 111 Franklin avenue.

Mayor Connell yesterday signed the Economy Heat and Power company contract for heating the Municipal building.

The fee at the Driving park is three inches thick and about five acres in area. The formal opening of the week takes place tonight.

Owing to dissolution of partnership, The Standard will not be issued today. It is probable that the paper will appear as usual next week under new management.

Rev. Dr. Charles H. Parkhurst will deliver his famous address on "Pure Civil Government," at the Frothingham Tuesday night. The sale of seats was opened at the Frothingham box office yesterday morning and was very large.

The Tribune's version of the Aveca tragedy was verified yesterday by the discovery that "Reddy" Kelly, who was supposed to be the victim of the cars, is at his home in Pine Brook and working every day.

The shoe store of John J. and P. F. Griffin, at Penn avenue and Spruce street, was closed yesterday by Deputy Sheriff J. D. Fisher, on execution entered up for \$1,100 by the instance of Robert J. Moore, of Taylor. The sale will take place next Friday.

A meeting of the Eastern league of base ball clubs has been called for Monday at 12 o'clock noon in the Fifth avenue hotel in New York city. Scranton will be represented by Manager McDermott and possibly by W. L. Betts, president of the old Scranton association.

The Scranton Bicycle club held a "snoker" last night, at which about seventy-five persons were present. Many of the guests were from out of town. Refreshments were served at 11 o'clock and vocal music was delightfully rendered by John T. Watkins and Fred Hand. Messrs. Wallace and Connolly had charge of the entertainment and proved themselves abundant providers.

Yesterday it developed that J. W. Gardner, the insurance swindler, was a duly authorized agent of the London Guarantee and Accident company, on which he drew his bogus policies. E. R. Hunt, resident manager of the company for the state of Pennsylvania, came to this city yesterday to investigate the matter which came to his attention through the newspapers. He said that one of his men made a trip through this region last spring establishing agencies and encountering Gardner, whom he employed and supplied with a number of policies.

Mr. Gill, of Honesdale, brother-in-law of Mrs. Josephine Robbins, came to this city yesterday and took charge of the remains. They were prepared for interment at Raul's undertaking establishment, and his morning at 9:40 will be taken to Cherry Ridge on the Erie and Wyoming Valley railroad, where interment, and this morning at 9:40 will be Gill said that Robert Brown Gerling was requested on Thursday by Mrs. Robbins relatives to take charge of the remains.

At the Young Men's Christian association service tomorrow afternoon at 3:45 a splendid programme has been arranged by the religious committee of the association. Colonel P. L. Hitchcock will address the meeting, taking for his subject, "Lessons From the Life of David." Professor J. M. Charney, musical director of the association, has prepared a special programme of music, immediately following the service Secretary Mahy's Bible Workers' class meets from 5 to 6 p. m., members, lasting about twenty minutes, allowing plenty of time to reach the different churches for the Young People's meetings.

## TROUBLE IN BELLEVUE MINE

Workmen Were Compelled to Leave the Workings Thursday.

### NOW PRACTICALLY DESERTED

Mine Superintendent Davies Says That the Caving Is Not Serious and That Work Will Be Resumed Again on Next Monday Morning.

The Bellevue mine suffered a cave-in Thursday night, which may cause the shutting down of the colliery. About one week ago ominous sounds were heard by the miners; the 8th was "shooting," a term used in the mines for the pressure of coal on the side of the mine causing pieces of coal to shoot out with a noise like the report of a gun. No attention was paid to the warning until Thursday morning, when a fall of roof at the foot of the Bellevue slope caused an investigation. It was found that an extensive settling was in progress.

After the seven car loads of rock which fell at the foot of the slope, had been cleared away the miners were ordered out of the mine. By this time the rumbling sound of the falling rock showed that the workmen were in eminent danger, and they started for the surface. Some left hats, mining tools and dinner pails behind in the flight. This was Thursday morning.

Since that time the mine has been practically deserted, save for the men sent down to investigate and watch the progress of the fall.

Every vein in the mine is affected, though the two lowest, the Clark and the Big vein, have suffered the most damage from the fall. The affected places in the mine are, fortunately, oil workings, though the places in active use have also suffered. The damage cannot be computed at the present time. The main fall occurred Thursday night when hundreds of tons of coal and rock fell in every vein. Thomas D. Davis, assistant inside foreman of the Delaware, Lackawanna and Western company, told a Tribune reporter last evening that the settling is only temporary. He said that the mines will be worked Monday, and that the damage will not be very great.

Outside the area of the settling extends from Meridian street to Eighth street, and from Luzerne to Hampton streets. This is the same region which suffered from the fall of two years ago. Large fissures have opened on Luzerne street in the vicinity of "Kelley's Patch." Several of the dwelling houses in the vicinity have dropped several feet.

**Handsome Organ Cheap.**  
A new Sterling Organ, elegant new style, high top, oak case, six octaves, four sets reeds, double couplers, etc., etc. This fine instrument was taken in exchange this week by Guernsey Brothers, 224 Wyoming avenue, in part payment for a Weber Piano.

**The Right Way.**  
To buy Diamonds, is to go to a Diamond expert who knows all about them. If he's a reliable man, your purchase cannot possibly result in disappointment. Turnquest, 205 Washington avenue, fills the bill in every respect, and his Diamond stock is matchless for extent, excellence and good value.

**Did You Buy It?**  
At Turnquest's? Of course I did. Who would ever think of buying Diamonds anywhere else.

**Some Men Know**  
Something about a Watch by hearsay, while other men know all about them by actual practice and can make one if need be. Turnquest, 205 Washington avenue, belongs to the latter class. Every Watch sold by him is tested and guaranteed, and yet it costs no more to buy them than elsewhere.

**15,000,000 in Gold.**  
The above is the amount the Cripple Creek gold district will produce in 1896. Have a splendid claim in the district and want a partner to furnish me a small amount of money monthly for four months. My title is perfect. Will deed a one-fourth interest. I believe the claim will sell for big money in the early spring. Good references. Address D. A. Porter, Midland, Colo.

**Gorham's Sterling Silver**  
Is known the world over. There's nothing better made. Turnquest sells it.

**Silks and Dress Goods.**  
We believe we have the largest and best selected stock in the city to choose from. Grand display of Haskell's black silks. See our window.

**Mears & Hagen.**  
There will be skating at the Driving Park this afternoon and evening. Electric lights and music in the evening. By an arrangement with the Traction company a red flag will be displayed on street cars when there is skating at the park.

## Why Not Try Paine's Celery Compound?

The loss of a single night's sleep tells in the drawn expression on the face and the sluggish powers of the mind. When this unfortunate privation continues night after night, no one can shut his eyes to the disastrous outcome.

Dizziness, neuralgia, headache, dyspepsia, melancholia and that dread paroxysm follow.

Physicians know the peril of sleeplessness. In every case brought under their care narcotics are rightly kept away, because momentary relief leaves matters worse in the end. A permanent cure that looks to a rapid nourishment of the nervous system is found in Paine's celery compound. Nothing

performs the needed service so surely and so rapidly.

It is the greatest nerve and brain restorative the world has ever known. The wonderful formula for Paine's celery compound is no secret to the medical profession. It is not a patent medicine. Its absolute freedom from any deleterious substance is an assured fact vouched for by the ablest physicians in the country, and by the eminent Prof. Edward E. Phelps, M. D., L. L. D., of Dartmouth college, who first prepared it.

Sufferers from neuralgia, neuralgic headaches and rheumatism should stop short their morphine, quinine and such pain-killing drugs. No cure can be hoped for from these temporizers.

There is one way of getting rid forever of the causes of all this suffering; that is by taking Paine's celery compound. In this great modern remedy the real menace to health is attended to; sleep is made sound and refreshing, the appetite improves and the nerves stop complaining, because they get the nutriment that nature requires. This is the fundamental, rational way that Paine's celery compound takes to be able to cope successfully with diseases of the liver, kidneys and stomach, and to guarantee complete return of sound sleep, good digestion and a quiet, well regulated nervous system.

Paine's celery compound permanently cures diseases of nervous origin. It makes the sick well again.

**The Growth of the Piano.**  
Fifty years ago the ownership of a Piano marked the family of culture and distinction.

Twenty-five years ago to own a Piano meant to be a little above the common folk. Today the Piano is as much at home in the miner's cottage as in the king's palace.

Of all things marketable, there is nothing on which the average buyer is so easily led astray as a Piano. It is good points and weak points in construction are a mystery to him, and infrequently instruments are palm oil to him at fancy prices, on which he could not realize one-third of their cost if circumstances should compel him to sell at any time. Such instruments are ten become a positive nuisance, owing to their wretched tone after a few years service, in place of a lasting source of pleasure. Of course, there are Pianos built that will last a life time without falling one iota.

The famous Weber Pianos are among the most noteworthy in this respect and strange to say, there never has been another Piano made possessing the same marvelous quality of tone, which seems to appeal to ear and heart alike and lingers in the memory like a grand sweet song.

**A Worried Swain.**  
Sister—What's the matter, Tom, you look ill or worried this morning?  
Brother—Yes; I didn't sleep a wink all night. I've bothered my brains till I'm tired and I can't think what to buy as a Christmas present for your old school chum, Constance.  
Sister—Well, I don't think much of brain power. Why, buy her a diamond at Turnquest's, on Washington avenue. You know every girl likes diamonds, and say, Tom, when you're out any way, get a ring and rattle to cut your wisdom teeth on.
